New DRIVE BELT for the DRYER Transport Enhancement Kit

A new DRIVE BELT, Part Number 8B7344, is now available for the DRYER Transport Enhancement Kit, Part Number 5B6862. It is $\frac{1}{4}$ in. longer than the DRIVE BELT formerly supplied with this kit. The longer DRIVE BELT should make installation and alignment of the DRIVE BELT easier. If you are experiencing difficulty in aligning the DRIVE BELT or keeping the DRIVE BELT in alignment, it is recommended you replace the existing DRIVE BELT with the new one.

The new DRIVE BELT is currently being shipped with all DRYER Transport Enhancement Kits ordered from Service Parts Management.
