## KODAK X-OMAT Processor

---

Eastman Kodak Company, Health Imaging, Rochester, New York 14650

SERVICE BULLETIN NO. 253

September 1996

### General Information

#### **Service Binder Complete No Longer Packed with Processors**

Beginning in October, 1996, the complete Service Binder will no longer be packed with Processors shipped from the factory. The Operator Manual, Installation Instructions and a Publication Release Specification sheet will be packed with the Processor.

The Publication Release Specifications sheet provides a listing of Product Related Publications, their Publication Numbers, and ordering information. You can order only those publications that meet your needs, or you can receive all of the publications listed by ordering the Binder Complete Number. You can also refer to Publication No. N-360, *KODAK X-Ray Film Processor and Associated Equipment Publications*, dated April 10, 1996 for a listing of publications and ordering information.

When ordering the Binder Complete Number, you will receive the binder, tabs, and publications unassembled. This will improve our ability to supply you with the most up-to-date information in the most timely and cost effective manner.

#### **Note**

Industrial Processors are not affected by this change.
